Disruption of

- ❖ Active Interception Systems
- ❖ IMSI/IMEI Catchers
- ❖ SMS Advertisement Systems

Bird Catcher

Capabilities

Detects

- ❖ Active Interception Systems
- ❖ IMSI/IMEI Catchers
- ❖ SMS Advertisement Systems

Operates in

- ❖ GSM
- ❖ UMTS
- ❖ LTE

Analyzes traffic of detected devices and provides following results

- ❖ Type of detected device
(Active Interception System / IMSI Catcher / SMS Advertisement System)
- ❖ Manufacturer's name
- ❖ Working Mode of detected interception system (Random Mode or Target List Mode)
- ❖ Target's identities defined in the target list of interception system
(Including IMSI, IMEI, Country, Operator, Model of the phone)
- ❖ Content of SMS advertisement

After detection and analyzing of fake BTS, 3 main actions are available

1

Location

Locate Fake BTS by using portable homing direction finder

2

Disruption

Disrupt functionality of Fake BTS

3

Interception

Intercept traffic intercepted by Fake BTS
*Only for governmental agencies
